December 1, 2022 - For Immediate Release
Change of Venue for 2022 South American Championship

Due to recent weather events in Southern Brazil and specifically the road flooding and road closures leading into the Guaratuba area the 2022 Lightning South American Championship venue will be moved from Guaratuba in Parana to the Guarapiranga dam in Sao Paulo.

The event will retain the same scheduled dates of December 3 – 7, 2022.

On advisement of the Brazilian Lightning Class and on agreement of all international competitors, the International Lightning Class has ratified the change of venue for the 2022 South American Lightning Class Championship. Panam Sailing has been advised of this change with the support of the competitors and is in support of the decision.

A special thank you to the Brazilian Lightning Sailors and to all the competitors for being willing to adapt to this last-minute change.

Sincerely,

Laura Jeffers
Executive Secretary
International Lightning Class Association
